

Ph.D & M.S. Scholarship
Electrical and Information Engineering (EIE) / Computer Science (CS) / Integrated IT Engineering (IITE)
Seoul National University of Science and Technology (SeoulTech), Seoul, South Korea

Ph.D & M.S. Scholarship Opportunity

Faculties in the Department of EIE / CS / IITE are looking for highly motivated full-time Ph.D & M.S. students interested in conducting cutting-edge research in telecommunications, wireless systems and device.

Description

The chosen Ph.D & M.S. candidates will be enrolled as full-time graduate students starting from **September 2018**.

- The position is fully funded including a tuition waiver and competitive monthly salary.
- The main research directions of the group are
 - [Subgroup 1]** Wireless Communications and Mobile Computing Applications: wireless communications and networking (cellular networks, massive MIMO, IoT, etc.), computing applications with artificial intelligence (AI) and machine learning, multimedia applications (VR/AR/MR).
 - [Subgroup 2]** Devices and Systems for Wireless Communications and Biomedical Applications: RF component & antenna design, RF/Analog/Biomedical/Power integrated circuit & system design.

Application Procedure

An interested applicant selects either subgroup (or both) based on his/her research plan and emails the scanned copy of the following to the corresponding contact point by **February 28, 2018**.

1. Detailed CV in English
2. Official transcripts of previously attended undergraduate & graduate institutions
3. Certificate of TOEFL/IELTS/TOEIC score if available
